Press Release

RPF Environmental, Inc. Celebrating 20-Year Anniversary

Northwood, New Hampshire, August 15, 2011: RPF Environmental, Inc., (RPF) an environmental consulting and testing firm based in Northwood, New Hampshire, is celebrating their 20-year anniversary. With offices in Northwood, NH and Amesbury, MA, RPF provides indoor air quality assessments; hazardous material testing; mold assessments; construction safety; OSHA and EPA regulatory compliance services; site inspections for asbestos, lead-based paint, mold, and other environmental hazards; and thermal imaging. In addition, the RPF professional development group provides corporate health and safety training programs for clients throughout New England.

Formed in 1991 by Roger Francoeur to provide specialized testing and consulting services for indoor air quality, lead paint and asbestos assessments, Roger was then joined by Dennis N. Francoeur, Jr., CIH, CSP and services were expanded to include comprehensive industrial hygiene testing and assessments. Currently RPF is providing consulting, inspections and assessments for several large-scale renovations at New England area schools, hospitals, municipalities, and industrial sites including multiple Brownfields redevelopment sites in Vermont, State-wide consulting services for the State of New Hampshire, multiple upgrade projects at Portsmouth Naval Shipyard, University Systems of New Hampshire, and various schools projects in Maine, New Hampshire and Massachusetts.

In addition to a full array of accredited environmental training courses, RPF also recently began offering lead paint training for contractors in accordance with the new EPA Lead Renovation, Repair and Painting rule.

The company's employees include several industrial hygiene and laboratory technicians, thermographers, certified safety professional, certified industrial hygienist, environmental health and safety instructors, and asbestos and lead inspectors.

Visit their web site at www.airpf.com or call 1-888 SAFE AIR for more information.
