# Press Release

## **RPF Associates, Inc. To Offer Thermal Imaging and Moisture Intrusion Technology**

**Northwood NH, November 30, 2007:** RPF Associates, Inc., (RPF) an environmental testing and consulting firm, has adding thermal imaging and moisture intrusion detection services using thermography. Thermography is the science or practice of collecting and interpreting infrared images. According to Roger Francoeur, Principal at RPF, the infrared technology is a powerful tool allowing for nondestructive building surveys to aid in the detection of heat loss for energy conservation purposes as well as identifying moisture intrusion that can lead to water damage and mold growth.

With offices in Northwood, NH and Amesbury, MA, RPF provides environmental testing and consulting; indoor air quality and mold assessments; industrial hygiene, and OSHA and EPA regulatory compliance services. For more information, email Larry Furey at [larry@airpf.com](mailto:larry@airpf.com) or call 603.942.5432.

**For Immediate Release**
